K2 CADETS

Want to be recognized for your skills and ability?
Our K2 Cadets is the choice for you!

★ General Information & Benefits

We are proud to introduce a new era in recreational gymnastics. In many other sports the athlete practices during the week and has the opportunity to show friends and family their accomplishments during a game on the weekend. We feel it is important for our gymnasts to have that same sense of accomplishment. K2 Cadets are invited to performance meets in which they will perform a short routine of three skills on each of the four Olympic events. Participants will receive a ribbon for each event based on their ability to perform each skill, as well as an all-around medal. Athletes will not be placed against each other.

★ Requirements and Time Commitment

Participants in the K2 Cadets must be enrolled in a gymnastics class at K2 Academy. Skills required for the performance meets, will be taught in the Cadet Camp on Friday*. Gymnasts should attend their regularly schedule class during the week AND the Cadet Camp on the Fridays they are offered.

★ How to advance in K2 Cadets

Gymnasts have the opportunity to advance through the K2 Cadets program by receiving all blue or purple ribbons at the performance meets and meeting the skill requirements for the next level. This will not effect their class placement .
